## WEAKENED PARTY LOYALTY

Among the "militant Democracy of Florida" who are rip-morning now, there are some, it is recalled, who sang very low in 1928, when at all times the typewriter-practice line, "Now is the time for all good men to come to the aid of the party" was apropos.

Will those who knifed the Democratic party in Florida in 1928 and who are so militant now, will they say they will support the nominee of the national convention if the nominee is Al Smith? We will answer for them. They will not say Yes.

That means of course that Smith probably could not carry Florida in 1932; and if he could not carry Florida, he probably could not carry those other states normally Democratic that he lost in 1928.

So far as the State can judge sentiment from expressions made in this region, Florida is a doubtful state. Candidates for the presidential race and the Democratic candidates are likely to do what they did four years ago—look after their own affairs and leave the national issues to another set of campaigners.

Times have been hard in Florida—banks have failed, real estate values have declined and wages lowered. There was a tendency to white to change the state officials and the legislature with this condition, but the defense has been maintained that it was a national condition. President Hoover's supporters have the same defense in the nation—that it is a nationwide economic condition not chargeable to the Republican administration. How sound and effective this form of defense is, is to be debated at length. A good many Florida Democrats are likely to do what a militant Democrat did when Alton B. Parker was nominated—go fishing instead of going to the polls.

## SPECIAL GAME LEGISLATION

A summary of local game and fish laws enacted at the 1931 session of the Florida legislature, sent out by the Department of Game and Freshwater Fish, lists several counties but does not show Palm Beach county. In addition, Okeechobee county, Glades county, Hendry county or Broward county. Evidently these counties were not subject to special legislation relating to game and fish. If this is so it is a good thing.

Some game reserves have been created in this region, presumably under a general law, and that action probably suffices.

There are few game reserves more controversial, confusing and annoying to the general public than changes in the laws relating to game and fish, particularly to fishing, because more people fish than hunt.

Tourists are invited to Florida and fishing is presented as a diversion for tourists, but if he doesn't know what changes in the law were made since his visit last year, he has something more to complain about.

The drainage canals as well as the lakes are fishing grounds in the Everglades, but residents are confused by statements about fishing regulations, and as they think of the canals as "our canals," they are reluctant to admit the authority of the Department of Game and Freshwater Fish to have anything to say about the conditions on which they use the canal waters. If it were not for the fact that the State is still in the drainage district which drainage taxes are paid, and that makes enough difference to require paying for two fishing licenses.

## TURKEYS AND GARDEN

Okeechobee News.

Howard Crouch, who resides in the southwest part of the city, is this week installing an overhead pipe irrigation system for his garden which will consist of five lots. Mr. Crouch raises a fine garden and has now ripening papayas from several trees. He raised and sold about 100 head of turkeys on his place last year and has a nice bunch of turkeys now. He also has one of the finest poultry farms in the county.

# IN LIEU OF GOLD

The Editor's Own Column

A friend of mine called the other day and wanted to talk about some deep subjects. I told him I was too busy with my daily routine to discuss those great fundamental subjects that he had in mind, so he asked me to read at my leisure a magazine that he left with me. In the magazine is an evidence of party loyalty that cannot be presented by a group of the former slackers who are now pushing to the forefront, greedily to get in on the spoils of office they think is looming.

Will those who knifed the Democratic party in Florida in 1928 and who are so militant now, will they say they will support the nominee of the national convention if the nominee is Al Smith? We will answer for them. They will not say Yes.

That means of course that Smith probably could not carry Florida in 1932; and if he could not carry Florida, he probably could not carry those other states normally Democratic that he lost in 1928.

# CONVICTS GRATEFUL

DESIRE SUCCESS OF STATE PRISON FARM

March 1st is the limit for residents as well as non-residents, and Mr. Boehm's warning is that all cars must have the 1932 tags by that date.

To prosecute a vigorous enforcement of the law, Mr. Boehm is to visit the upper Glades by the first week in March and to word sent to Mrs. Ora W. Powell of Pahokee, local tag agent, by James A. Boehm, chief deputy of the Department of Transportation. As the time fixed in the law has passed, and as Florida tags are accepted in other states, Hoch is no reason for any non-resident delaying the payment of the license fee and getting a 1932

## Captain Hunt and His Boys

Make Record of Their Views in Letter

Men in Stripes Acknowledge Appreciation of Courtesy by Citizens

Men at State Prison Farm No. 2 tender the following letter for Publication:

We wish to take this means of showing our appreciation to the citizens of Belle Glade and vicinity for the kindness shown us by them.

We came into your community, strangers, but we are under no adverse circumstances to us, on account of being state convicts. But we have been received by the people of this community in such a way as to show us that you were broad-minded enough to take us for what we are, and we are grateful for the kindness shown us by them.

We certainly do appreciate this attitude toward us more than we can say.

We want to thank Mr. Paul Bunch for the kindness shown us by him when he came to the farm Sunday morning with his radio and gave us the opportunity of hearing a very fine program and sermon from Miami, Fla. We certainly did enjoy the whole program very much, and those of us that he took to Belle Glade want to thank him for the interest he took in us by showing us the town and the people of this community.

We had three different sermons Sunday, all of which we certainly did enjoy. And we want to thank those who came out and preached for us and we extend an invitation to any and all religious organizations to come to the farm any Sunday you feel like, as you welcome.

We are always glad to have anyone come to see the farm, and we assure that we will be received by us with the greatest courtesy that we can give you, and we want you to know you are welcome.

We are here trying to help make this project, doing all that we can to make it a paying proposition.

The gentleman that first started this project here some few weeks ago, is a gentleman that we convicts have found to be a man in every respect.

This gentleman that we speak of (the Honorable L. F. Chapman) is assistant superintendent of the State Prison at Raiford, Fla., and we are glad to be in a position to say that you people of Belle Glade are the best of friends we have found here, and we can depend on you.

When we first came to the farm, we did not know who we would be in contact with or on arriving here we found Mr. A. Richardson, and his crew of men, and we want to say that we have found him and his men to be A. No. 1 fellows.

We are glad to thank them one and all for the way they received us.

Again, thanking you for the kindness shown us, and hoping that our conduct will at all times merit your approval, we remain,

CAPTAIN W. HUNT AND HIS BOYS

Mr. F. L. Chapman's Right-hand man

## SEEKS ELECTION ON SCHOOL BOARD

Rev. J. P. Rodgers, a teacher in the Canal Point school and pastor of the Pahokee Baptist church, has announced in the Palm Beach Times his candidacy for member of the county board of public instruction. The Times says Mr. Rodgers has issued the following announcement:

"At the request of many friends in the Glades section and after the consideration of the educational problems directly confronting the schools of Palm Beach county, the Rev. James P. Rodgers, Pahokee, has consented to announce his candidacy for member of the board of public instruction for the county board of public instruction No. 1, subject to the Democratic primary of June, 1932."

This district includes the towns of Riviera, Kelsey City, Jupiter, Canal Point and Pahokee."

# MR. NELLER HEADS CLUB IN NEW TERM

The regular bi-monthly meeting of the Belle Glade Woman's Club was held at the home of Mrs. George Parker Wednesday afternoon with the following members attending: Mrs. J. F. Shelden, Mrs. A. D. D. Walters, Mrs. R. W. Kidder, Mrs. D. T. Walters, Mrs. J. F. Brown and Mrs. J. R. Hoch.

The annual election of officers resulted in the choice of the following: Mrs. J. F. Shelden, first; Mrs. J. P. Neller, second; Mrs. D. T. Walters, third; Mrs. A. M. Webster, fourth; Mrs. R. W. Kidder, fifth; Mrs. J. F. Shelden, sixth; Mrs. J. F. Brown, seventh; Mrs. J. R. Hoch, eighth.

The committee reported the magnolia tree set in the city park as one of the Washington bi-centennial celebration.

At the close of the business session delicious refreshments were served by the hostess.

The next meeting will be held at the home of Mrs. D. T. Walters.

## Sugar Co. Directors In Meeting At Clewiston

Directors of the United States Sugar Company met at Clewiston this week, it is reported from several sources. Reorganization Manager Hitting of New York was still remaining in the city although some of the other directors left at the end of a session Tuesday.

There is not much local curiosity as to the purpose or outcome of the directors' meeting, as the feeling is that the management will do what it has to do from time to time as the varying conditions of weather require, rather than adhere to a hard and fast program.

## Transfer of Judgment Against Old Sugar Co.

Transactions relating to the old Southern Sugar Company are being put on record at court houses in Palm Beach, Glades and Hendry counties, and the filings probably have no significance, being merely details of adjustments made at the time the sale of assets to the present United States Sugar Company.

Of recent transactions of a certain character a county seat paper says:

"For \$1 and other valuable consideration, the Wide World Corporation sold a final judgment against the Southern Sugar Company in the amount of \$1,231.75 and all of any other claims it may have against the Glades Purchasing Company on January 30, according to an instrument of conveyance, an instrument received for record stated."

**SOUTH BAY SCHOOL**

**Play Revised From History**  
By Marjorie Harris  
Sir Walter Raleigh Meets Queen Elizabeth

**ACT I**

Setting: A fancy dressing room with many maids surrounding the queen. Many mirrors should be placed in the room.  
Time: Early in the morning of 1587.

Place: Inside the queen's dressing room at the palace.  
First Maid: Might please your Grace the people expect you and your barge is waiting.

Queen: Yes, Eliza (Queen claps her hands). Geraldine! Come at once. My hair is yet to be fixed.  
Geraldine: Your Majesty, the street is very muddy. (Queen pays no attention.)

First Maid: (To herself). Ah! a lucky Queen she'll be. The Duke of York is a very charming young man.

**SCENE II**

Setting: The place yard and a muddy street.  
Time: Later in morning same year.

Place: In street outside the palace.  
Queen: Gilbert, summon the guard, Oscar. (Then to herself). Ah, 'twould be a fine thing if I were to be admired by the Duke, for he is a fine man. (A procession starts as soon as Oscar is summoned.)

Queen: Why, Geraldine, it had been raining. Why didn't you tell me?  
Geraldine: Yes, my fair Queen. I mentioned it to your Highness but—

Queen: (To herself). How careless I am thinking about the Duke and never thinking that my slippers might be spoiled in such rainy weather. Oh that large puddle. (She hesitates.)

Oscar: (Quickly). Did you drop something?

**SCENE III**

Setting: Same as Scene II.  
Place: Same as Scene II.  
Time: Same as Scene II.

Sir Walter Raleigh: (Standing at side of road as Queen approaches). 'Tis the closest I've been to her Royal Highness yet. She is as fair as—why does she hesitate? Ah, I see (quickly he jumps to her side and throws his coat and lays it over the muddy spot). Ah, just in time.

(The Queen nods and smiles sweetly—Walter bows.)  
Walter, to himself: Heart, stop fluttering so. Oh how glad I am that I have done this noble favor to please her noble Highness.

**ACT II**

Setting: The crowd standing near the shore watching the Queen's barge leaving.  
Place: Beside the Thames River.  
Time: About 11 o'clock.

Sir Gilbert Blount: Ho! Ho! Come along Sir Coxcomb. You have done enough for today. (They start to go and someone taps Raleigh on the shoulder.)  
Fusioner: Sir, I am looking for the man who is without a cloak.

I presume you are he. Please follow me. They leave the stage.)

**ACT III**

Scene I  
Setting: Inside the palace.  
Time: Late afternoon.  
Place: Queen's parlor.

The Duke: Your Highness, who was this young gentleman who assisted you so graciously this morning?

The Queen: Sir, that I know not, but we shall soon know for I have commanded that he be brought here.

The Duke: Dear Sovereign, we are indeed fortunate to have such noble men in our country. I admire his character from the very heart of me (maid enters).

Geraldine: Your Highness, the sir whom you are expecting has arrived. Shall I please your grace that he be ushered into the parlor?

Queen: Yes, my Geraldine. (Then as she goes out the Queen says to the Duke). Geraldine is a prize maid. I don't know how I could ever replace her. Let us await the coming of this young man. Sir Walter Raleigh: Never have I been accorded so great an honor.

Queen: (To a guard). Escort this young man to our palace wardrobe, keeper, and there allow him to select a fine suit of the newest cut.

Raleigh: May it please your Grace if it became me to choose (Queen interrupts him).  
Queen: Thou wouldst have gold, I warrant.

Raleigh: Your Majesty, neither gold nor cloth could ever take the place of this humble garment which today has been so honored by your Majesty.

Queen: How boy, what is it then that thou wouldst have of me? (The Duke and Queen exchange glances.)

Walter: Only permission, your Majesty if it is not asking too high an honor, to wear the cloak which has done you a small favor.

Queen: What, you silly boy! Permission to wear this own cloak?

Walter: This cloak is no longer mine dear Sovereign, since your Majesty's foot touched it, it has become a fit mantle for a prince. It is much too fine for its former owner.

Queen: Young man, what is your name and birth?  
Raleigh: Most gracious Queen, my name is Raleigh. I am the young man of an honorable family from Devonshire.

Queen: Raleigh? Have we not heard of your service in Ireland?  
Raleigh: I have been so fortunate as to do some service there, but 'twas for too small a mention.

Queen: Master Raleigh, fail not to wear thy mud-dyed cloak till we are further acquainted. I wish thee well till then. Here this is thine to wear on thy collar (pulls jewel from dress).  
Raleigh: This jewel will I ever

keep in remembrance of you my dear Sovereign. (He kneels and kisses the hand that gave it.)

**THE END.**

**HINTS TO HOUSEWIVES**

Weekly From Home Demonstration Specialists, Tallahassee

**USING CANNED PRODUCTS**

By Lucy Belle Settle.  
Knowing that the farm home-makers of Florida have canned an average of several hundred quart jars of fruits, vegetables, meats and fish, we have planned a number of recipes to help utilize some of these products.

**Fish Chowder.**  
Take four ounces fat salt pork, 2 cupfuls raw fish, 8 small potatoes, 2 onions, 1 pint milk, 3 cupfuls boiling water, and 3 slices bread.

Slice the salt pork and fry in a deep kettle. When crisp, remove and add fish, potatoes and onions, all of which have been diced. Cover with boiling water and simmer one-half hour or until the potato is tender. Add the milk, season to taste with salt and pepper, and bring to boil again. Have crackers

and croutons ready. Make croutons by putting bread into inch cubes and toasting. Add to the chowder just as it is ready to be served.

If home canned fish is used, the potatoes and onions will need to be cooked tender before adding the fish. Chowders may be made using several different kinds of vegetables and omitting the fish. Oysters or chicken may be substituted for the fish.

**Chicken Gumbo**

Use 3 or 4 pounds chicken, 1-2 cupful diced salt pork, 1 onion, 1 quart canned okra, 1 pint canned tomatoes, 1 cupful boiled rice, 2 sprigs parsley, 3 cupfuls boiling water, 1-2 teaspoonful pepper, 2 teaspoonfuls salt, and 1 cupful cream.

Cut the chicken in small pieces and fry until brown in the fat from the salt pork. Remove and place in a deep kettle. Cut the onion into thin slices and brown in the fat. Add the okra, tomatoes and parsley and cook slowly for one-half hour. Place all of the vegetables in kettle with the chicken. Add boiling water, pepper and salt and simmer slowly for two hours or more until the chicken is very

tender. Remove the chicken bones and add the boiled rice and cream. Let boil up once and add extra seasoning if needed. Serve while very hot, dividing the chicken so that each soup plate has some of the meat as well as some of the vegetables.

**PLUME BIRDS INCREASING**

According to a statement by J. V. Kelsey, U. S. game protector, the numbers of plume birds in the Everglades area have increased greatly in the past few years. Mr. Kelsey states that old residents of that area tell him that there are more plume birds in the lower Everglades than at any time during the past fifty years. Mr. Kelsey attributes this remarkable increase to the protection given by the federal and state wardens and by the

wardens employed by the Audubon Society.

**BUILDING BRIDGES**

The Martin County engineer's construction crew is building a bridge on the loop road. It is 20 feet long and 12 wide. This makes three new bridges built on the loop road within the past three months.

The construction crew has started the work of building a new bridge on the main road between Indian- town and Jupiter. The bridge will be 14 feet wide and 40 feet long.

**EDITORIAL STAFF**  
Editor-in-Chief, Chris Vason.  
Assistant Editor, Bill Crews.  
Social Editor, Joe Parker.  
Feature Writer, Margaret Hooker.  
Sports Editor, Gethie Smith and Stuart Spooner.  
Manager, Looper Houston.

**EDITORIAL**  
By Bill Crews.  
All the schools of the nation are showing their appreciation of Washington this week by putting on programs or writing small essays on him. It is very hard to write about such a great man in such few words.

Every school boy and girl looks up to Washington as a guide to follow or to imitate. It is said that Washington never told a lie. He was very courteous; he was brave; he always led his army. He was a man of very strong physique; he could endure lot of hardships. One could write all day about the many good traits in Washington's character. About a great editorial writer said, "We don't think of Washington as a surveyor, as general, as a president, or as the father of our country—but as a private citizen."

**PERSONALS**  
Mrs. Colson spent Sunday afternoon in Lake Worth.  
Melvin Herring drove to Lake Placid Sunday.  
Ortha Thompson and Gethie Smith attended a lecture on "Conditions in China" Friday afternoon at the Baptist church.

Louise Gold, John Padgett and Joe Helms went squirrel hunting in Cooper Hammock Thursday afternoon. They returned with thirteen squirrels. Not bad, huh?  
Park Wilder went to West Palm Beach on a shopping trip Thursday.

Larkin Spooner has returned to school after being absent for a week. He was lost from his hunting party four days in Big Cypress swamp.  
Vernette and Elizabeth Stucky attended the Eastern Star banquet at the Woman's Club Monday night.

Mary Baker is back in school after being ill for a week.  
Oscar Brown returned to Okeechobee on Sunday afternoon.

Edith Willis went to West Palm Beach to attend a picture show Sunday.

Margaret Hooker went to Lake Worth Tuesday to attend the funeral of Mr. E. M. Taylor.

Cara Belle Morris went on a picnic Sunday afternoon.

Ruby Taylor has been absent for several days due to the death of her father, Mr. E. M. Taylor of Belle Glade.

**JUNIORS**  
The president, business manager, assistant manager and sponsor of the junior class had a meeting to discuss some plans for the banquet that is to be voted on at the next class meeting.

Our home room teacher, Miss Young, was absent Tuesday.

**SOPHOMORES**  
Mallie Maloy.  
Sally Taylor, one of the popular members of the sophomore class, has been absent this week because of the death of her father.

Anna Lee Boynton was absent Monday because of illness.  
Leona and J. R. Miller visited relatives in Ocala Saturday and Sunday.

Aline Murphy and Anna Lee Boynton motored to West Palm Beach Sunday.

The sophomores are trying to get up enough money to frame the picture of George Washington for their room.

Edward Thompson and Dan Padgett participated in the four mile race in Miami, Saturday, February 13.

**FRESHMEN**  
Frances Howell.  
The freshmen class elected Frances Howell as news reporter for the second semester. She is successor to Grace Adams, who served as news reporter the first semester.

Mr. Wilson taught the ninth grade general science class Wednesday. He substituted for Miss Young.

A new pupil enrolled in the freshman class this week—Andrew Howell of Avon Park. The enrollment of the freshman class is now thirty-seven, which shows that it has increased somewhat since the beginning of the school year.

Representative Ruth Bryan Owen of Florida has presented to each school room in her district a portrait of George Washington, our first president. The freshmen class is now collecting money to have the picture framed. Each pupil is contributing a nickel to the fund.

The freshmen class is planning to have a picnic sometime in the future.

Naomi Lott spent the week-end in Homestead visiting relatives.

Mr. Holman attended the cross country races in Miami Saturday.

The ninth grade general science class is collecting money to buy a book of Edison. Each pupil is contributing ten cents.

Among those absent this past week were: Elsie Jones, Morris Tiffin, Naomi Lott, Andrew Howell and Albin Padgett.

**SPORT NEWS**  
Gethie Smith.  
The Pahokee girls seem to be very unfortunate here in Lake Worth. The girls team lost their second game to the Okeechobee girls to the tune of 13-10. The first half of the game Pahokee was winning, the score being 7-6.

The girls fought hard, but some of the girls being fouled out caused the Okeechobee forward to get loose and make a few baskets in the last half of the game.

Pahokee vs. Jupiter.  
The girls' basketball team of Pahokee motored to Jupiter Friday. The local team was beaten by the Jupiter girls with a score of 20-7.

During the half the score stood 12-2 in favor of Jupiter. There was a one Jupiter forward that just couldn't miss. When she threw for a free shot the score keeper might as well have said down one, for she always made it.

There was only one field goal made. This was by Imogene Sanders.

The girls have only three more games to play, two of these being composed of freshmen and sophomore girls. They play Clewiston high school team in the Pahokee gym Wednesday night. Luck to them.

A tennis club is being organized in the high school. There were only two girls out Monday afternoon to play tennis. They expect to have more out the next time.

The boys' team will compete with other high school this season.

**Boys' Basketball**  
Stuart Spooner.  
Last Friday the boys' basketball team of the high school motored over to Jupiter and turned in a victory over Jupiter high. The game was rather slow and close until the third quarter when Joe Parker dropped in two baskets and Dorsey Pugh came through with another basket to put the game in the bag. The final score was 19 to 14 in Pahokee's favor. All the boys played a good game and John Padgett played outstanding ball on the defense.

**Cross Country Race**  
The Pahokee high school track team went to Miami last Saturday and competed in the annual cross country race. The Pahokee team took fourth place in the race which was run over ploughed ground sandy fields, through palmetto patches and over hard surface.

The distance of the race was four and nine-tenth miles. Although the team did not win they received good experience for the race next year.

**PAHOKEE BOY SCOUTS**  
Billy Smith, Reporter.  
The Scouts held their regular meeting Tuesday night. The boys are going to start work on their hut Wednesday. Valpoie Denton passed a test on nature study. Dues were taken up and good turns were reported. Those present were Rev. Tolle, Henry Mock, Dick Flinders, Wilbur Maxwell, Laurie Gates, Ray Thompson, Warren DeWitt, James Stapler, J. B. Stapler, Joe Helms, Valpoie Denton and Billy Smith.

**PAHOKEE METHODIST CHURCH**  
J. A. Tolle, Pastor.  
Sunday school, 10 o'clock. O. B. McClure, superintendent.

Morning worship, 11 o'clock; sermon by Joe A. Tolle.

Choir practice, 4 p. m., Sunday; Mr. E. Messer, leader.

Evening worship, 7:30 o'clock; sermon by Joe A. Tolle.

Prayer meeting, Wednesday, 7:30 p. m.

A thrill-packed drama of those hard-living, hard-fighting and hard-living men of the old west, "The Rainbow Trail," Prince Theatre, Tuesday, and Wednesday.

## "SUNDAY NIGHT AT SETTIN" NOW ON THE SCREEN

Combining a wistful, rural simplicity with a stern drama as rugged as the Maine coast, Setti Parker, of broadcast fame, made an auspicious screen debut at the Prince Theatre Thursday in RKO-Radio Pictures' "Way Back Home."

The film is a pleasing diversion reminiscent of the vigor, the spontaneous humor and honey rustic atmosphere of the immortal "Way Down East." In it the currently popular Pahokee brings to the screen for the first time the simple philosophies, the nobility and uncompromising valor of country people in times of stress.

Real people recreate the film story, but above all rises the striking personality of Parker playing a majestic, modernized Moses who is forever getting his fellow villagers out of trouble. He makes the humblest totem of the errand and of run-away Roger, played by Dorothy Parker, fosters a romance, and adopts a motherless orphan to confound a drunken father.

Parker is assisted by a cast almost equally made up of radio and film players. On the radio side are Parker (his real name is Phillips "Edna" Palmer as "Ma Parker"), Raymond Hunter as "Captain Bang" and Bennett Kilpatrick as "Cephie."

"Way Back Home" was directed by William Seiter, from an original story by Jane Murnin.

**DEPUTY POSTMASTER**  
A daughter was born Friday to Postmaster and Mrs. Harold Rosenberg of Canal Point. Mrs. Rosenberg had been in a hospital in West Palm Beach for several days preceding the event.

**CHURCH OF THE NAZARENE**  
Pahokee.  
Pastors, T. C. and R. E. Grigaby. Sabbath school, 10 A. M. Morning worship, 11 A. M. U. P. Y. S., 6:45 P. M. Evangelistic services, 7:30 P. M. Mid-week - prayer meeting, Thursday, 7:30 P. M.

Sister C. M. Todd gave us a wonderful lesson on the symbol of a rose at our U. P. Y. S. last Sabbath evening, illustrating with the roses. The lesson will never be forgotten.

Next Saturday night, the 20th, the male quartette from Trevecca College, Nashville, Tenn., will be with us and give us a full evening of singing. This quartette is among the very best. The vice president, Professor Lovejoy, will accompany them.

You have a standing invitation to all our services.

Read about it in The News.

## FIRST BAPTIST CHURCH

Pahokee, Fla.  
Sunday school, classes for every body, 9:45 A. M.

Morning worship, subject, "Washington, a Man of Valor," 11 A. M.

E. Y. P. U. services, Junior, Intermediate, Senior, 6:30 P. M. Evening song and evangelistic service, 7:30 P. M.

Mid-week prayer service, Wednesday, 7:30 P. M.

We welcome strangers to all of these services. Come and feel at home.

Our Sunday school continues to grow. Just a little more effort and we can be a standard Sunday school, then we get a large beautiful banner from the Sunday School Board of Nashville, Tenn. Come and bring your Bibles, that seem to be our weak point.

Our revival service begins March 6 and lasts through March 20. We have been fortunate enough to secure the services of two of the best men in the state to help in this meeting. The young people's worker and song leader will be Mr. Lloyd King, from Apopka, Fla. The preacher will be Dr. Geo. Moore, of the First Baptist church, Ft. Pierce, Fla. Everything is pointing toward a most successful revival.

Those who took the study course under Mr. O. K. Radford will receive their marks at the evening service next Sunday.

REV. J. P. RODGERS.

**DINNER TO DEALERS**  
A complimentary dinner was given Friday night at the All-American Cafe in Canal Point to Seaboard Oil Company dealers in this territory. R. O. Nichols of Orlando is district agent and J. K. Baker of Clewiston is the distributor who serves the dealers on the eastern and southern shores of Lake Okeechobee.

## MAKES CHARGE OF USURY IN ANSWER TO SUIT

From Palm Beach Post.  
Charges that usury was practiced and that therefore a mortgage encumbering their property should be decreed satisfied and cancelled of record, are contained in an answer filed by T. A. Bass and wife, Bertha L. Bass, to a bill to foreclose a mortgage brought by Ida Peterson, a widow.

The defendants allege C. J. Peterson, husband and general agent of the complainant, about September 9, 1929, secured and obtained a note and mortgage for the defendants received only \$1,750 cash, received a credit of \$200 on another matter and that Peterson demanded \$900 additional as a bonus or commission, which was in addition to the eight per cent interest upon the \$3,450. Therefore both contracts for note and mortgage are usurious, and the amount actually charged by the complainant was in the sum of \$1,176, which is more than 25 per cent for the period of one year, and therefore usury was practiced, the defendants claim.

Thadde Walden and Homer T. Amis represent the defendants.

Read about it in The News.

**LEGISLATORS ENTERTAINED AT MIAMI RACE TRACKS**  
Fifty members of the Florida legislature were guests of the City of Miami Friday and Saturday and were entertained at the Miami Jockey Club and visited the Jai alai fronton and the dog racing track and the horse racing track. Daily papers in Miami list among the south Florida members of the 1932 session who partook of the hospitality: E. L. Stewart and wife of Clewiston, Joe H. Peoples and wife of Citrus Center, R. K. Lewis and wife of West Palm Beach, Peter Tomasello and wife of Okeechobee and Elvin A. Bass and wife of Pahokee.

Thundering hoofs, crashing fists, riding "The Rainbow Trail," Prince Theatre, Tuesday and Wednesday.

# ACTIVE INTEREST IN SCHOOL AFFAIRS

The P.-T. A. met in regular session at the school Thursday afternoon. In the absence of the president, Mrs. H. E. Jones, who is ill, the vice-president, Miss Bertha Albin, presided. It was announced that trees are available for the beautification of the school grounds. Arrangements were made for observing father's day, with a special program, the date to be announced later. Miss Albin's room won the dollar award for having the largest number of mothers present.

Superintendent Youngblood was in Belle Glade Monday helping to adjust matters in the new arrangement of the school, which will be effected that day. The seventh grade pupils, and the children of the first seven grades, at the experiment station who have been attending at South Bay, carried over, are now taken care of in the Belle Glade school.

One new teacher, Mr. Wilson, has been added to the faculty, and the enrollment by grades now stands as follows: First grade, pupils, taught by Miss Elizabeth Thompson; second and third, thirty-eight pupils, taught by Mrs. C. A. Thompson; fourth and fifth, thirty-six pupils, taught by Miss Bertha Albin; and the sixth and seventh, thirty-two pupils, taught by Mr. Wilson.

The enrollment has increased so much this year, that the extra room is now in use and all rooms are running almost at capacity. This should be borne in mind, and provisions made for the excess and rollment before the beginning of the fall term.

## CHAMBER OF COMMERCE

The regular meeting of the Belle Glade Chamber of Commerce was held at the American Legion hall Tuesday night. It was decided to hold future meetings at the city hall, as it affords a more central location.

The membership drive is progressing but there should be much wider response as this organization can benefit this section in many ways.

A committee composed of Dr. Wm. J. Buck, R. Y. Creech and Luther Jones went to Lakeland Tuesday to attend the meeting of the state road department, which was passing its final budget Wednesday.

R. Y. Creech is supervising the preparation of the display from this section to be entered in the parade that will be held at the George Washington birthday celebration at West Palm Beach. Any one who has produce for this display may take them to Mr. Creech's place or leave word with him or Joe Freidheim and they will be called for.

Mrs. K. C. Alston was hostess at an elaborate bridge luncheon Tuesday when the valentine motif was attractively carried out in the menu and decorations. Her guests were Mrs. H. A. Stollenberg, Mrs. Carl Cysting and the members of the Tuesday Bridge club. Prizewinners in the games which followed the luncheon were Mrs. Lawrence Bessant, first and Mrs. C. B. Lozier, second.

A number of commercial booths have been engaged for the Everglades Fair, April 1-10. Agricultural displays will be shown by Boynton, Lake Worth and Loxahatchee Farms as well as local concerns.

K. C. Alston went to Tampa Wednesday to spend Thursday which was Shipley Day at the fair. He was accompanied by J. R. and D. G. Alston and Arthur Lawrence of Cleveland. The party returned Friday.

# The Glades And Its Affairs

In a big acreage of vegetables on the state prison, two miles north of Belle Glade is overflowing by water from Lake Okechobee, the members of the Board of Public Institutions who are also members of the board of commissioners of Okechobee Flood Control District will have an angle of Glades affairs brought to their attention rather pointedly. Likewise if the overflow is from rainfall they will get a new slant on the conditions that are created when the canals are unequal to carry off the flood waters. And that's one of the reasons it's a fine thing for this region that a state institution has been located here.

Fires in the muck attract a good deal of note and bring out a lot of comment and some of the comment isn't creditable to the commentators. This region is undergoing a drought—or it is at the time this paragraph is written; a drought such as produces bad effects even in a timbered country. Federal government maintains a large forestry service in timbered regions, but even the federal government's forestry service is unable to wholly prevent and control fires. The Florida State Road Department has its limitations but its crews have done as good service as their facilities permitted in preventing and fighting fires in the Everglades.

A good many well-informed men expect a considerable live stock industry to be developed in the Everglades, but some of the long-time residents are less confident; they think the time of live stock will be a time after the control of Lake Okechobee and improvement of the drainage systems. If live stock are to range the country, that calls for a large area, and there is no large area of muck lands sufficiently drained to risk a bunch of cattle on it. Draining will require the introduction of men who are willing to be on the job 365 days a year as well as the introduction of dairy cattle. A bean grower can be made out of a dairyman but you can't make a dairyman out of a bean grower.

Fruits and berries seem to some of us to be a better line of approach just now than live stock, for there are berries that will withstand considerable variations in moisture and temperature; berries can be canned at the same cannery that vegetables are canned, and some berries can be picked before fully mature, or will "hold up" after picking better than vegetables. In the long run it is labor that gives value to land; mucking cattle on hand doesn't bring population to the degree that other uses of land do. Retail merchants and newspaper publishers want the kind of development that brings population.

The best supporter of a government of the people, for the people, by the people is the owner of a home in a small town or the owner of a small farm, and the best method of bringing about equalization of taxes and economy in government is to make more people owners of homes and payers of taxes. If this country is to be dependent on a few big land companies for its taxes, that means that men who are non-residents are to be the biggest taxpayers, men who have interests besides Everglades interests, men who are not wholly dependent on the outcome of their investments here.

**LOSS IN NAVAL STORES**  
Comparative figures compiled by the Florida office of the United States Department of Commerce, Jacksonville, from the 1922 Census of Manufactures, Bureau of the Census, indicate a decrease in the number of turpentine and rosin establishments in the state during 1929 as compared with 1919. In 1919 there were 452 such establishments and 325 in 1929; a decline of 127 plants during a 10-year period. Wage earners, however, increased from 11,749 in 1919 to 13,738 in 1929. Wages paid showed a decrease from \$4,832,535 to \$5,060,444 in 1929 and a similar decrease in the value of turpentine

and rosin products from \$21,508,933 in 1919 to \$11,727,809 in 1929. For the two years under review, cost of materials, containers for products, fuel and purchased electrical energy for Florida establishments showed a decline from \$5,558,824 to \$3,374,422.

For the United States as a whole, such plants decreased from 1,191 to 1,183 during the ten-year period. Although plants in operation decreased the number of wage earners in the industry increased from 28,067 to 40,157. There was a decline in wages paid from \$15,792,881 to \$15,036,175 and the value of products produced declined from \$33,651,294 in 1919 to \$36,251,632 in 1929.

## EAT MORE ORANGES AND AID STATE PROGRESS

Miami, February 13, 1932.  
To the Editor:

Suppose one million of Florida's one and one-half million population would eat one grapefruit and two oranges a day; in one month Florida would have consumed ninety million grapefruit and oranges, with the result that it would have added health, vigor and vim to every human system participating, and at the same time brought progress and prosperity to this essential industry of the state.

Florida sunshine vitamins and health minerals are bottled up for internal consumption in Florida's citrus fruits, which are grown for the healing of the nations. Eat your way to health by eating Florida citrus fruits.

"A drink of Florida fruit juice is a drink of health"—is more than mere slogan. It is a known fact that people suffering from general debility, a sluggish liver, auto-intoxication and kindred ailments have been aided through a systematic daily consumption of Florida citrus fruits. It has been proven that a two weeks treatment of an exclusive Florida citrus fruit diet,

together with sun and water bathing, has rejuvenated the entire human system. At any rate, here is a daily health prescription worth trying: 1 grapefruit and 2 or more oranges a day.

There is nothing more refreshing and strengthening to the tired body than a drink of cool orange or grapefruit juice . . . try it. Isn't it better to consume the healthful products of Florida than canned peaches, prunes and other imported products—especially when it means the rebuilding of our bodies and the conserving of our health and at the same time materially adding to Florida's prosperity?  
Sunshine Service  
GEO. H. HILTY.

In the Circuit Court, Palm Beach County, Florida, IN CHANCERY.  
T. E. LA BYER, JR., Plaintiff,

vs.  
LOUISE MAE LA BYER,  
Defendant.

Order for Publication Notice to Appear. (Divorce)

To Louise Mae La Byer, Resident Unknown, last known resident address: care of D. E. Beach, 840 Quillion Road, Cleveland, Ohio. It is hereby ordered that you, Louise Mae La Byer, do appear to the Bill of Complaint filed against you in the above entitled cause, on or before the Seventh day of March, 1932, and The Everglades News is hereby designated as the newspaper in which said order shall be published once a week for four (4) consecutive weeks. A default will be entered if you do not appear.

Witness my hand and the seal of this Court this 27th day of January, 1932.

## C. P. SCHOOLS

The Junior Red Cross again plus the honors on the fifth grade for doing service. This time the fifth grade prepared a large box decorated with red paper and hearts and filled it with valentines and sent it to the detention home in North Palm Beach. At Christmas time the fifth grade made up some beautiful Christmas cards and sent them to the Soldiers' Hospital at Key West. This grade is certainly doing fine work for the Palm Beach County Council of the Junior Red Cross. Keep the good work up, fifth graders!

Special reports were mailed out this week by the teachers to the parents of those pupils who have failed in one or more studies. These reports state the subjects failed in and the salient factor or cause for this failure, as observed by the teacher. It is hoped that each parent who receives one of these special reports will make a special effort to assist his boy or girl in trying to bring up the failed subjects and pass at the end of the year. A neglect of this matter may cause the pupil to fail to pass at the end of the term. It is only by the fullest cooperation of the parent with the teacher can this matter be taken care of and remedied. It goes without saying that each teacher wants to see every pupil pass but this is also possible only at the utmost cooperation of the parents.

## NEWS FROM THE GRADES

## FIRST GRADE

The first grade received work books this week which are very interesting. We lost two members of our class this week; Margaret Beasley moved to Georgia, and J. P. Hodges moved to Jacksonville.

We have quite a number of absentees this week on account of sickness and sore eyes.

The following have parts on the George Washington program Friday afternoon: George Washington, Louise Sims; The Flag, Yvonne Sortor; Our Flag, Edward Belden; and all the pupils are leaving a song, "George Washington."

## SECOND GRADE

Babs O'Connell, Margaret Adams, Margaret Davis, Ruth S. Wilson, Melba Sims and Hazel Brisco were on the honor-roll for this week. For the last few days we have been studying about George Washington. Dorothy Tucker has visited Mr. Vernon and has told us many interesting things about the place. Babs O'Connell and Martha Mae Stokes were housekeepers this last week. For our chapel program we had a Washington exercise which told facts concerning General Washington.

## THIRD GRADE

Mrs. H. U. Howell and Mrs. J. H. Hudson, our room-mothers, gave us a surprise Valentine party Friday afternoon. The room was decorated with spring flowers and valentines. Refreshments of cake, mints and lemonade were served to about 35 pupils. We enjoyed the party very much and went to the bank to see the room-mothers for their consideration.

Herman Wisdom moved to Georgia and Oni Padgett moved to St. Cloud. We are sorry to lose these good pupils but hope to have them with us again sometime.

Claude Vincent from West Palm Beach enrolled with our Monday.

## FOURTH GRADE

In the fourth grade we have two with perfect attendance for the first semester: Elmer Maxson and Freddie Hooks.

We have a new pupil this week Edwin Peoples from West Palm Beach. We are sorry to lose Leona Beasley for the remainder of the term, who went back to Georgia.

## FIFTH GRADE

We had a wonderful Valentine party in our room last Friday. Juanita Mills, Maide Harrington and Juanita Howell decorated a big red box for us, all filled up with red paper and bows and valentines. We mailed all our valentines in this and decided to send the "Guess who" ones to the county Children's Home in the pretty box. Mrs. Winnie, one of our room-mothers, helped Mrs. Rodgers give out the heaps of valentines—then Mrs. Winnie served us the "surprise" who had brought us a great big cake with pink icing! It sure was good and we appreciated our valentine very much.

Our room gives the chapel program Friday. We have two Washington songs to sing—"The Flag Song" and "Father of the Land We Love." We shall also present a sketch from Washington's life. The characters in the playlets are: Mammy, Juanita Mills, Nellie Curtis, Anne Neaves; George Parke Cullin, Joe Tom Boynton, Martha Washington, Robert Grimes. We will be glad to have the parents see our program Friday.

The fifth grade is very proud to announce that the following pupils have a perfect attendance record for the first semester of school: Susan Bardin, Ann Neaves, Dorothea Winnie and Lester Hand.

## SIXTH GRADE

Report is made that Elliot Fuhs has perfect attendance for the first semester.

## GOLD STAR MOTHER'S DIARY TELLS OF VISIT TO FRENCH BATTLEFIELDS

(Continued from Last Week.)

We all enjoyed the nice fruit for breakfast, especially the cherries. I never saw such delicious large ones. The foods are very rich and not just the kind we were used to. But we soon learned how to eat the bread. They served lots of chicken cooked in different ways, fish, mushrooms and raw vegetables. Our officers warned them not to serve us any home meat for Americans didn't eat that.

We were free to rest until 2:30 p. m., then we were to visit the Arc de Triumf (Triumph). The oldest mother placed a wreath there; then we went to a Gold Star tea at Lamotte. Captain Ellis was in charge. A French captain gave the opening address. General Pershing gave a very impressive talk, an American minister of the Congregational church and two of the highest officials in the Catholic church; also many other notables made speeches. Another day well spent.

After breakfast we all went on a shopping tour to Bon Marche store, the largest store in the world. In the afternoon we visited Napoleon's tomb, also the Sacred Heart cathedral. This is the highest peak in Paris. We could get a good view of the city from here. We passed George Washington's monument, shaking hands with a French soldier. Also Benjamin Franklin's monument. Today is Sunday. We all attended some church. At 2 p. m. we went to Surmene, an American cemetery 30 miles from Paris, where 1,500 are buried. This was our first cemetery. It was here that I had the honor to place a beautiful wreath on the Unknown Soldier's grave, as I was the only one in

## SEVENTH GRADE

Sadie Wilson Reporter.

Our class elected new officers the first of the week, elected as follows: Merdis Bridges, president; Barbara Bethes, vice-president; Raymond Damon, secretary; Ruth Doman, treasurer; Mary Winnie, song leader, and Edna Smith, chairman.

Guess who? Raymond Damon, George Maxson, Ruth Doman, Mary Winnie, Gladys Hession and Sam Wilson haven't missed a day in the first semester. And hope they will be more on the list next time. So to them goes the 100 per cent attendance record.

The president is thinking very seriously of giving a party for the room next week.

There will be no school next Monday, on account of George Washington's birthday.

## EIGHTH GRADE

The meeting was called to order Friday, 12, by the vice-president, Margaret Hill. The roll was called and the minutes read by Dorothy Shearer.

Doss Tabb made a motion that we, the eighth grade, have a party. It was recorded and voted upon, and it was decided that we have a tacky party Friday, 19 at the old Public school house on the beach. We were up so much time planning the party that our class time elapsed, so the meeting was adjourned.

WEST PALM BEACH

rible battle was fought; it lasted days.  
Then we passed through No Man's Land again; all along were German tanks, entanglements, old machine guns and a monument here and there.

We had luncheon at the Bristol hotel; everything to eat that heart could wish, and everybody was hungry after such a long drive. Our next stop was at the city of Verdun, totally destroyed here. It was a sight to see that large and once beautiful city all in ruins. There is a new highway built through here; it is called the Sacred Way as there was so much blood spilled along here.

Then we came to Chatelain Thierry, another one of our American cemeteries. There are about 5,000 buried here; there is a magnificent monument and chapel erected there.

This is our last cemetery to see today. We leave at 4 p. m. to return to Paris, after a five days' stay at Verdun visiting points of interest through the surrounding country.

We again passed through Belou Wood; here you get some idea of the horrors of war. My, what our boys must have endured. Let me say here not to forget to help those that came back in every day of life. We can never repay the debt we owe them. We arrived back in Paris about 1 o'clock, in time for luncheon. We felt like we had got back home when we walked back in the Dienna hotel again.

Today is Saturday. We were free to rest or shop; a number of ladies decided to go shopping; we thought we wouldn't need a guide, but soon changed our minds. We could not find anyone that could speak a word of English. They took our money but didn't know how to make the change. Some of us had some French money but we didn't know when they gave us the right change. So you see what a problem it is. Everyone was very courteous to us when they looked at our badges, and did all they could to help us. When we were ready to go back to the hotel we couldn't make any of the taxi drivers understand where we wanted to go and we didn't know the way back. Finally I thought of my program that I happened to have in my purse, with the name of the hotel on it. (Of course we didn't pronounce it like they did). I showed the name Dienna to the driver and he helped us in and

soon we were back at our hotel.

At 2:30 we went to the Louvre, the old kings palace with over 2000 rooms; it is now a museum. There is a hall of mirrors where the peace treaty was signed. The ceiling is pure gold. Statues before Christus were there from Italy and Greece and paintings by the best artists in the world. The guide told us that thousands visited there daily.

We are all ready packed at this time, Sunday 8 p. m., to leave at 9 in the morning for London.

We were taken to the train in buses and soon we were on our way, six ladies in each compartment. This was very interesting, being taken together with different ones, each telling her own experience while in Paris. The scenery was grand all along. At 12 we had lunch at Barm, where Joan of Arc was burned at the stake. We took a boat at Dieppe to cross the English channel. I'll never forget that English channel; we were told that it is always rough. The sun was shining brightly, it was a lovely day, every one was sitting on deck enjoying the new sights. I'll have done about five miles from shore, when a terrible fog arose, swept away hats, scarfs and umbrellas into the sea. We were all rushed down below and everything closed up. This was

an awful storm. Everybody was sick, even the nurses and some of the cabin boys. There was a large boat with 450 passengers; 1 one mile from us that was lost in this storm, so you see I've had a thrilling experience in the English channel. We landed at New Haven and were met there by a large crowd of lords and ladies and other notables to welcome us to England. We were taken to Hotel Alexandros to feast on the good things that had been so carefully prepared for us. This has been a hard day for all yet very thrilling.

This morning found us in historical London, the wealthiest city in the world. A sight seeing trip was planned. We drove through Kensington Gardens, a lovely drive, then we passed the barracks and the old soldiers home, then came by Abraham Lincoln's monument. We saw the dog cemetery, a beautiful large place with inscriptions in memory of darling Fido or Flissie. We crossed London Bridge. Then to St. Paul's cathedral built in 1669 then we visited the Tower of London, a huge structure, a

## South Bay School

Edited by Ninth Grade.

### EDITING STAFF:

Robert Klink, editor; Harold Hawkins, James Cherry, Willie Boots, Bonnie Gardner, Eloise Barnes, Don Herring, Mable Rashly, George Waldron, Emil Stein.

### EDITORIAL

#### Why We Are Proud of the South Bay School

By Robert Klink  
Some who have recently become pupils of the South Bay school are fast learners; that its excellent reputation is well earned and are glad to acknowledge that South Bay is their school.

We have an excellent school-house. We are hoping to enlarge our school and soon be worthy of a senior high school. Not only do we have a good school building and capable teachers, but we have a student body who do their part in keeping up the school's reputation. Any student body can raise or lower the standard of a school. We try to make this plain and make our contribution the best.

Interesting Class Work of South Bay School  
In the ninth grade, we are studying the "Lady of the Lake." It was written by Sir Walter Scott.

In algebra, we are studying division, addition and fractions.

In the civics class we have just completed our "Community and Life Civics" book, and will start a new one.

In "Ancient History," we are studying about the crusaders in their attempt to capture Jerusalem.

A drama to be presented by the eighth grade is entitled "Sir Walter Raleigh Meets Queen Elizabeth."

#### An Appreciation of Washington

By James Cherry  
All over the United States and in many other parts of the world, the 200th anniversary of the birth of George Washington will be celebrated. Now is the time to plan our parts in the great series of historic events in honor of the memory of our first president.

Read about him. Think about him. Talk about him. The more you know about him the more you will want to show your gratitude for the man who won our independence and founded our nation.

Learn of his courage and strength of character; his achievements as a surveyor, engineer, soldier, farmer, business man, and first president of the United States.

It would be appropriate that no man, woman or child—no village, town or city fail to give expression of homage to the Father of our Country during the celebration of the 200th anniversary of his birth.

At the program presented by the South Bay school, February 22, each parent of every child in school is cordially invited to attend.

#### Chapel

By Eloise Barnes  
Following a custom of the school, which is to have the pupils of the various rooms of the school present a program in chapel every two weeks, the fourth and fifth grades, taught by Mrs. Overcast, were in charge of the program this week.

The program stressed many beneficial health rules. Different pupils of the two classes gave recitations demonstrating various rules of health. Other pupils contributed songs to the program. Two of these songs were "Drink Your Milk Every Day" and the other was "Brush Your Teeth."

A program such as was presented by the fourth and fifth grades is very appropriate, because it is interesting as well as instructive. The George Washington Program by Bonnie Gardner.

The South Bay School is going to present a program in honor of George Washington. The contribution to the program from the first grade consists of a recitation, a song and a minuet in which a group will appear in colonial costumes.

The second and third grade will present the following: "The First American Flag," a recitation, and a song by the class, "Washington."

#### NINTH GRADE

By Willie Boots

The ninth grade presents a play containing four characters. This part of the program is entitled "When George and Martha Returned." The theme of this play is the improvements of civilization since Washington's time. In this play, George and Martha come to life and marvel at the miracles of later civilization. The characters are Willie Boots, George, Mable Rashly, Martha, Modern Man—Emil Stein, Wife—Louise Cooper. The eighth grade is presenting several tableaux, showing various episodes of Washington's life.

The fifth and sixth grades, under the direction of Mrs. Clemens, will present several incidents of Washington's life during the French and Indian war, his love

for his grandchildren and how they liked his stories.

#### Sports

By Mable Rashly  
The junior high school boys and girls of South Bay are planning to turn their volleyball court into a basketball court. Each girl and boy has contributed to the funds necessary to get baskets. The boys have promised to put up the backboards for the baskets and repeat the court, under the supervision of Miss Shepard.

After several practice games, the two teams will be chosen. We hope to succeed in learning how the game is played, to have a great deal of fun, and eventually to compose a good team.

#### Origination of Baseball

By Don Herring  
Modern baseball originated with the old Knickerbocker club of New York City. In 1845 the first rule book was published. From that time the game met many changes, but increased its hold on the boys and men of America.

When the civil war broke out the soldiers played ball in camps. The soldiers in grey played ball the soldiers in blue. At the close of the war, the game of baseball was carried to every section of the north and south. Baseball is the national sport of the United States.

Amateur and professional baseball sprung up in the seventies and eighties. In 1878 the National League was formed. In 1900 the American League was formed. There is a "world series" in which each league competes for the world championship. Baseball is chosen sport, and it is greatly due to the men who have built up the professional game that we play so largely are free from rowdiness and unfair tactics.

When you bat, catch, pitch or run, avoid tricks. Do everything in the simplest, easiest way. Make every motion as short and as direct as possible.

#### Biography

By George Waldron  
Don Wade Herring, born in Dade City, Florida, December 26, 1916. When only a few months old his parents moved to Geneva, Florida, where his father worked at a turpentine still until his father died three years later. He then spent eight months with his aunt and uncle at Campbell Station, Florida. He is a stout, little fellow, from which characteristics he got his nickname, "Gopher Baby." He is the comedian of the school. He is very fond of baseball, in which sport he is very good.

#### Personals

Mr. Nance is our pleasant, helpful principal who tries very hard to make the children learn something. He becomes angry or occasionally and takes exercise by using his rubber hose on one of the boys in the privacy of his office.

Miss Shepard is a pleasant young teacher, who is not hard to look at and very good at teaching school. She is rarely seen without a smile on her face. Everyone at school likes her, that is if they don't love her.

Mrs. Clemens is a very good teacher. We have noticed that all the children in her room are proud to say that she is their teacher. Miss Royal is a young lady, who teaches the second and third grades. She seldom smiles, so the children cannot very well tell when she is angry or when she is cheerful.

Mrs. Overcast is from Montana and taught there previous to this year. Now teaches the fourth, fifth and sixth grades and is an excellent teacher.

Miss Vabey is a cute little lady who teaches the first grade. She isn't hard to look at either. She is not much taller than some of her pupils.

#### Honor Roll

Ninth grade: Eloise Barnes, Louise Cooper, Robert Klink, close Eighth grade: Ethel Barnes, Marjorie Harris. Seventh grade: Adrian Daane.

**WIDEMAN FOR DELEGATE**  
To the People of the Fourth Congressional District of Florida: The next president of the United States will be a Democrat unless the Democratic party exhausts itself with internal strife. With united support behind John W. Davis, Franklin D. Roosevelt, Newton D. Baker, Owen Young, John N. Garner or Albert C. Ritchie the election of either seems assured.

In my opinion Alfred E. Smith has had his chance. Looking back a little, it appears appropriate for him to nominate and support Franklin D. Roosevelt. Smith should not again be permitted to split the Democratic party into fighting factions.

I am a candidate for delegate from the fourth congressional district of Florida to the Democratic national convention.

The fourth congressional district is composed of the counties of Duval, Clay, St. Johns, Palm Beach, Putnam, Volusia, Seminole, Orange, Brevard, Flagler, Oklawaha, Osceola, Indian River, Martin, St. Lucie, Deade Broward and Monroe.

I respectfully solicit and will sincerely appreciate your vote.

FRANK J. WIDEMAN.

## DOCTOR'S ADVICE

This column is sponsored each week by the Florida Medical Association. These articles are intended to be of distinct help to the citizens of Florida from an authoritative source. Inquiries will be welcomed and promptly answered if addressed to the Florida Medical Association, Box 81, Jacksonville, Florida.

### IRRITABLE CHILDREN

The irritable child is usually so from physical cause. Either he is not entirely well or is uncomfortable. It is much better to find and eliminate such cause than to try to correct it by punishment which usually has only the effect of making him resentful and justly so.

The most usual cause of irritability is probably an improper diet. This naturally will upset his intestinal tract to a certain degree, and while not actually causing any acute discomfort or actual pain, will give him a sense of uneasiness and make him cross. A correctly balanced diet will cure many cases of irritability. Therefore, see that the child does not take an excess of any one kind of food and too little of another. They are all equally essential to his well-being.

Physical defects such as defective teeth, imperfect vision, infected tonsils are other common causes of irritability. In the presence of a large number of defective teeth, it is almost impossible for the child to properly masticate his food. Impaired digestion results and the child is cross.

Imperfect vision leads to eye strain and consequent slight or severe headache. In these cases,

the child is usually irritable late in the day for no apparent reason. Eye examination reveals the cause and correction of the defect cures the trouble.

Infected tonsils lead to an irritation of the nervous system and, in some aggravated cases, to St. Vitus' dance (chorea). The child suffering from infected tonsils is often a very nervous individual, easily upset, and full of an irritating energy that rapidly exhausts the parents. Constant correction of the child makes the matter worse and the entire family is soon on edge.

Proper clothing probably has as much to do with a child's well-being as almost any other one thing. The vast majority of children are dressed entirely too warmly. This is not only unnecessary but is positively harmful.

The infant is born with a perfect heat-regulating mechanism that adjusts the body temperature to the outside changes of temperature quickly and efficiently. The functioning of this mechanism is greatly impaired by changing the weight of clothes with every change of weather conditions so that over a period of years the functioning of the body regulator is almost destroyed. The fever clothes put on the child right from infancy, the more resistant the child will be to colds resulting from exposure to cold, wet, etc.

Parents, then, in seeking to correct irritability in a child should look to these things and see that, first, the diet is well balanced; second, that all physical defects are corrected (if any are present); and, third, that the child is properly and comfortably clad. If these things are done, the vast majority of children will be converted into the happy, tractable individuals they are meant to be.

**THREE INDICTMENTS**  
The Oklawaha county grand jury returned three indictments, reporting:

Floyd Thompson, forgery and uttering a forged instrument; Otis Uphigrove, grand larceny; Everett E. Johns and Glen Livings, breaking and entering.

Living, breaking and entering; Mrs. J. H. Johns, concealing property.

The leaf of the moonvine and the sweet potato are so nearly the same in outward appearance that it is hard to tell them apart. In a barber shop the other day an ex-Georgian told how to know which is which. The moonvine won't climb.

Mrs. Sam Danziger of New York arrived here Tuesday to spend the winter with her husband, who is in the produce business.

Mrs. G. C. McLarty and Mrs. C. Berry spent Friday in West Palm Beach visiting.

Mr. and Mrs. B. Elliott made a business trip to West Palm Beach Thursday.

Jerry Gold of West Palm Beach spent Saturday in Pahokee with his father H. Gold.

Tolly and Theodore Youngblood spent the week-end in Parrish visiting their father.

Mrs. J. B. Elliott and daughter Lorraine spent Monday in West Palm Beach on business.

F. U. Grant and Buck Douthett made a business trip to West Palm Beach Monday.

Miss Elizabeth Stuckey spent Monday in West Palm Beach.

H. A. Littman received a radio-gram Saturday from Kripka, Russia, telling of his father's death.

Mr. and Mrs. C. C. Chen have moved into their new home.

Mr. and Mrs. Carl Miesel spent a few days in Anson, Ga., last week, visiting relatives.

Mrs. J. C. Caruthers and children have returned to their home in Okelanta after a short visit with relatives here.

Mr. and Mrs. L. L. Stuckey and daughters Verne and Elizabeth attended an Eastern Star district meeting at the First Methodist church in West Palm Beach Sunday night.

Mr. and Mrs. S. R. Miller and family spent the week-end in Wauchula.

E. L. Wilder and E. P. Parker made a business trip to West Palm Beach Monday.

Mr. and Mrs. R. J. Schroder spent Friday in West Palm Beach visiting Mr. and Mrs. A. Cadoo.

Mrs. J. U. Grant and son James of Miami visited Mr. U. Grant here Sunday.

Vincent Grant visited his father, J. U. Grant, Wednesday.

R. W. Ware of West Palm Beach was a business visitor in Pahokee Friday.

The Epworth League was entertained with a skating party Monday evening. Rev. and Mrs. Joe Tolle were chaperones. Those present: Misses Mary Louise Murphy, Margerie Cochran, Frances Howell, Juanita Spooner, Mollie Malloy, Ruth Simmons, Catherine Gray, Olga Humphries, R. J. Schroder, Ellis Murphy, H. Lovett, Hubert and Stuart Spooner, L. S. Wheeler, Bill Crenshaw, Rupert Mock, Joe Helms, Dan Paggett, Larrice Adams, Carlos Humphries, Melvin and R. J. Winchester, and Junior Cason.

Love and hate ride side by side along "The Rainbow Trail," Prince Theatre, Tuesday and Wednesday.

## CANAL POINT

Mr. and Mrs. Steve Solick of Broom Point had dinner with Mr. and Mrs. W. F. Buchanan Sunday and after dinner the ladies went with Mr. and Mrs. J. E. Carter to Fort Myers, where Mr. Carter is farming. The ladies reported that Mr. Carter has the best field of beans they saw, the good condition of his beans being due to the care he has taken of them.

Mrs. Ed. Forbes and Mrs. Beale Wells motored out from West Palm Beach Sunday afternoon to attend the installation of officers and officials of the worthy grand malvern of O. E. S. They returned to West Palm Beach Wednesday after spending the night with Mrs. Forbes's sister, Mrs. J. W. Barrett.

Mr. and Mrs. Luke Fraser and Vernon Fraser were called to Ft. Myers Monday, where their sister, Miss Lora Fraser, underwent an operation for sinus trouble. They returned home Wednesday and reported that she was some better, although still in a serious condition.

Mr. and Mrs. A. J. Miller returned from Jacksonville Friday where Mrs. Miller has been spending some time.

G. V. Hudson spent Sunday and Monday in Levy county visiting his mother.

Mr. and Mrs. L. C. Sims spent Sunday in West Palm Beach.

Buster Willis of Lake Worth and Miss Edith Templeton of West Palm Beach were the Sunday guests of Mr. Willis' sister, Mrs. J. B. Miller.

Mr. Lloyd Gibbons of the U. S. Engineers, who has been in Canal Point for the past two weeks, returned to Clewiston Thursday.

Mrs. G. L. Mosley of Sefton, Ga., is visiting her daughter, Mrs. W. A. Fowler and Mrs. A. H. Haisrick.

Mr. W. H. Vann will leave Friday for Jacksonville, where he will spend the school holidays with her son Gordon, returning Tuesday.

Miss Beale Barwick of Sefton, Ga., is the house guest of Mrs. W. A. Fowler.

## C. P. WOMAN'S CLUB

The regular meeting of the Woman's Club was held Tuesday afternoon at the home of Mrs. E. H. Harrison. It was voted to send flowers to Mrs. Rosenberg, who is in the hospital in West Palm Beach.

The next meeting, to be held March 1, will be with Mrs. W. P. Jernigan, at which time officers will be elected for the coming year.

At the close of the meeting Mrs. Harrison served delicious strawberry shortcake with whipped cream and coffee to the following guests: Mesdames Coburn, Jernigan, Sims, Weatherington, Goodby, Gibbons, George, Hudson and Malard.

## INCOME TAX RETURNS

W. C. GOODJOHN  
Representing FORD, BOYD & COLLEY, Certified Public Accountants, Jacksonville, West Palm Beach, Gainesville, is making headquarters in the office of W. H. Vann, Canal Point.

## CALLERS

R. N. Wall, branch manager of the Oliver Farm Equipment Sales Company of Richmond, Va., was a visitor to this region this week coming to consult with the local Shore Supply Company, local agents for the Oliver line. A call to this office he was accompanied by C. A. Smith, the Florida salesman. Mr. Wall has a thorough knowledge of the Lake Okechobee region, having spent a week here with headquarters at Clewiston a year or so ago. Although the drought has done a good deal of hurt, he thinks that as a temporary condition that will in no wise affect the general progress of the region.

W. J. Snyder of the Arundel Corporation and C. A. Wurtz of an explosives company, both of Miami, visited upper Glades communities Wednesday on a trip made to see what is going on. They had stopped the night before with Captain Wattler on the dredge Caloschatche at the Arundel ship on St. Lucie canal east of Indianland and planned to visit Clewiston before returning to Miami.

Mr. and Mrs. N. B. Robinson of Antigo, Wis., who are stopping in Lake Worth for a few months, drove out Sunday and visited all of the towns on the southern and eastern shores of Lake Okechobee. Mrs. Robinson was Miss Sarah Upham before her marriage and lived at Shawano, Wis., a fact interesting locally because of the use of the Indian word Shawano as the name of the Brown Company's camp on Hillsboro canal. Certain Indians from New England were moved many years ago to a reservation in northern Wisconsin and as they left the name Shawano there so too they took it to Wisconsin. A definition of Shawano is "The land it is appropriate that the word should be used near this limit of the nation's boundary."

## GATORS AND SNAKES

Alligators, according to a recent issue of the Nature Magazine, eat water moccasins. In southern climates where they were once plentiful, but which have for many years been the "gators" slaughtered and driven away, the poisonous snakes have rapidly increased. The Fort Lauderdale News thinks alligators are one of south Florida's greatest assets and as they are, comparatively harmless and eat very little man - secured food, their native element, however, they eat gars, mud turtles and other underwater fish and reptiles which prey on game fish. Those who wantonly shoot and kill these "gators" are destroying a valuable Florida asset. They are doing a definite harm to their state and community. They are eliminating a major Florida attraction. Gator hunters are responsible each year for the burning of thousands of acres of valuable muck lands. The News says.

A three-act drama of those hard-boiled, hard-fighting and hard-loving men of the old west in "The Rainbow Trail," Prince Theatre.

Stuckey Shoe Building at R. R. Crossing between Canal Point and Pahokee.

## SOUTH BAY

SOUTH BAY, Feb. 17.—Evelyn Fisher, daughter of S. J. Fisher, who was injured one day last week on her way to school when she was struck by a passing truck, was brought from the hospital here from behind and carried a short distance on the bumper of the truck and then thrown under the speeding vehicle, the truck passing completely over her. She was immediately picked up by some bystanders and rushed to the emergency hospital in Belle Glade, where Dr. Buck treated her for bruises on her body and a gash on her head.

The accident occurred during the passing of the school children and was within the school zone where motorists are warned to slow down. This is a constant menace to the school children as many motorists on the highway go through town at a high rate of speed and the children must take their chances.

Witnesses to the accident estimated that the colored driver of the truck was making approximately thirty miles an hour when he struck the child and evidently had no brakes as he was unable to stop in more than a full block. He was promptly placed under arrest by Deputy Sheriff R. G. Fisher and taken to the county jail.

Naomi Fisher, who has been a patient at the Good Samaritan Hospital in West Palm Beach for some time, has recovered sufficiently to be brought to her home.

D. H. Bennett and son Wally made a business trip to Miami one day last week.

Dr. R. V. Allison, superintendent in charge of the University of Florida Experiment Station, made a recent trip to South Bay in connection with his work.

At a meeting of the official board of the Community church on Sunday, E. S. Campbell was elected lay delegate to the annual conference of the St. John's River District of the Methodist Episcopal church to be held at Melbourne the week of April 15. L. J. Cowen was elected alternate lay delegate.

Arrell Jordan and husband of Pahokee were Monday afternoon callers at the home of her parents, Mr. and Mrs. D. H. Bennett.

G. J. Barstow and son Carl and daughter Ruth made a week end trip to points on the east coast.

The South Bay unit of the Upper Everglades Garden Club will meet with Mrs. H. C. Willis on Thursday, February 25, at 3 P. M. Dr. Lobell of the University of Florida Experiment Station will be the speaker of the afternoon and his address will deal with Spray and Spray Materials for the control of insects.

Everyone interested is cordially invited to attend this meeting.

Mrs. E. E. Forbes will be bass soloist at a silver tea sponsored by the Ladies' Aid of the Community church at her home on Tuesday afternoon.

The program committee of the P. T. A. consisting of Mrs. H. B. Danks, Miss Vivian Shepherd, Mrs. Rev. and Mrs. J. L. McLendon of Lakeland are spending some time this week in this vicinity in the interests of their work.

Miss Lou Willis Honsler, Red Cross public health nurse, spent one day last week.

E. M. Shaughnessy of Tampa was a caller in this community one day last week.

## OKELANTA

Feb. 17.—Every house in town is now occupied and the demand for rooms continues. It is being realized that this section is no more susceptible to frost than the Lake region, nor the land less productive.

Word has been received here from Mrs. Henry Beard's slow recovery from a gall stone operation at Richmond, Va. The Beards were "franchising" on the Miami canal for a number of years and expect to return to their home in our land of sunshine.

A Minnesota car occupied by Mrs. and Mrs. Peterson from Minneapolis, who own ten acres in this vicinity, stopped for a short time Monday.

Some time ago E. C. Cooper was visited by Mrs. Nellie Ames and Mrs. Belle Dabner from Manlius, N. Y. The ladies had stopped at St. Petersburg before coming here, calculating to take in Palm Beach, Lake Worth and Tampa on their return north.

The Stitts family from Chicago, who are spending a month vacation at Greencares, have been visitors at the Anjima home a number of times recently, while Ruth Anjima was a guest with her aunt and uncle Saturday and Sunday.

Luther Line, from Belle Glade, owner of ten acres of muck, formerly located, inspected his holdings Sunday.

The former post office is at present tenanted by a young couple, the Nobles.

John Newhouse, from the Brown Company Farms, will be here at home in the Penner house.

John Spitzer, who left here some time ago for Lantana, on the east coast, reports that George Miller, former settler near the North River canal, is only able to be about on crutches.

The Norton family returned to this neighborhood just in time for Mrs. Norton to be at the bedside of her stricken sister, Mrs. Chaney, who is, however, getting along better.

The pioneer settlers and the early investors in land in this part of the Everglades, though absent, are much interested in the completion of state road No. 28 from the lake to the waterway, and are fervently hoped that at the coming road board meeting at Lakeland the unfinished link of this essential highway may be deemed worthy of emergency action.

Rain is sorely needed by all the Everglades, though absent, are much interested in the completion of state road No. 28 from the lake to the waterway, and are fervently hoped that at the coming road board meeting at Lakeland the unfinished link of this essential highway may be deemed worthy of emergency action.
